

A. Review & Motion to approve minutes from 9-15-2022 meeting**B. Announcements/Informational items**

- 1) **Congratulations.** Thank you **Sharon** and **Eric** for being wonderful colleagues and mentors to our students. We wish you all the best on this next leg of the crazy race that is academia. Sharon and Eric will continue to teach and serve our programs through the end of the 2023 Spring semester. Today **Gail Wagner** was honored at the Governor's Award luncheon. **John** and **Kelly** received CAS travel grant funding. **Jennifer's** CAS proposal for a co-curricular event associated with the "Play" Themed Semester was funded. This is an event paying tribute to the work of linguistic anthropologist, **Marjorie Goodwin** (UCLA) who was anthropology faculty member at UofSC for 20 years with her late husband Charles Goodwin. She will be coming to campus in the Spring to give a talk on a panel in her honor on peer play through peer talk-in-interaction. **Samantha Martin**, one of Jennifer's doctoral students in linguistic anthropology through Linguistics Program was just awarded a Wenner Gren Foundation Fellowship to support her fieldwork in Chile on feminist organizing through affective genres beginning in January 2023.
- 2) **New cabinet identified for Arch wet lab to replace the one impacted by flooding. Ati has reported this to Doty to be covered by the insurance policy.**
- 3) **LeConte is Open, but Arch Lab still a work in progress.** I spoke with CAS Head of Facilities, Mike Doty about the timeline to completion for the new arch research lab space in LeConte. The scheduled completion date is 10/24, but he anticipates that the actual completion date will be around 10/31 though the A/V unit still might be missing due to supply chain issues. The target then for move in will be November so that we can move all the shelving, tables, and chairs set aside for that space across three buildings into that space.
- 4) **Octoberbest Anthropology Involvement.** Oktoberbest (this year being held in 8th floor conference center of Close-Hipp; see link for details). Kelly and students will be doing a 10-min lightning presentation of Public Heritage Lab goals and resources, and we'll have a table set up demonstrating the work that David Hansen and UG Abby Rivers have done so far with object photogrammetry and artifact replication.
